2. Adjunct Professor, School of Food and Nutritional Sciences, University College Cork, T12 R229 Cork, Ireland
3. Adjunct Professor, School of Food Science and Environmental Health, Technical University of Dublin, Grangeorman, D07 XT95 Dublin, Ireland

Prof. Dr. Christine O'Connor

School of Food Science and Environmental Health, Technological University Dublin, Grangeorman, D07 XT95 Dublin, Ireland

Message from the Guest Editors

The distilled spirit category is a massive multi-million global business and encompasses a wide range of products, such as whiskey, vodka, gin, brandy, rum, Tequila, and many others. The level of competition within this sector is huge, and production and diversification are continually evolving to meet consumer expectations and trends in an ever-expanding global market. Such growth and diversification have, however, increased the potential for fraud, which can range from simple substitutions to life-threatening health and safety issues. This Special Issue aims to highlight some of the most recent advances in analytical approaches for the authentication and identification of fraudulent distilled spirits.

Deadline for manuscript submissions:

31 October 2024

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
