Head of Cereal Chemistry,
Tamworth 2340, Australia

Deadline for manuscript
submissions:

closed (22 July 2022)

Message from the Guest Editor

Durum wheat is used around the world for a variety of food products such as pasta, couscous, bulgur, bread, and cookies, to name a few. Developments in processing, breeding, new functional pasta, testing methods, and other technologies have been responsible for significant changes in durum-wheat-derived food products. The objective of this Special Issue is to summarize recent developments using a cross-disciplinary approach. You are cordially invited to submit review articles and original research papers related to couscous innovations, specialty durum wheat and impacts on foods, advances in quality assessment of durum grain and derived food products, wholegrain/wholemeal pasta processing methods and uses, grain processing and impact on phytonutrient availability in pasta, trends and innovations in bulgur, bread, other durum-derived food products, durum wheat milling innovations and impact on product quality, functional food pasta trends, changes in durum wheat quality through a breeding-historical perspective, extruded pasta products. and other relevant topics.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
