submissions:

closed (20 January 2021)

Message from the Guest Editor

Novel food preservation technologies are continuously demanding the development of more robust, efficient, sensitive, and cost-effective methods to guarantee the quality, safety, quality, and traceability during product shelf life, in agreement with consumer demands and legislation requirements. Consequently, the research about novel methods used in food preservation is a promising challenge to be applied in innovative applications and future trends with a great variety of technologies within reach of this topic. In this sense, this Special Issue, “Novel Food Preservation Methods and Their Applications”, will cover a selection of original research and current review articles related to the use of new food preservation methods to ensure the quality and safety of the final product.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
