Message from the Guest Editors

To reduce food loss, food packaging remains one of the major and mandatory solutions for all manufactured food products. However, due to its environmental and public health impacts, and due to its mainly petroleum-based origin, food packaging is increasingly decried by consumers, NGOs and public authorities. The use of natural resources, including biopolymers, macromolecules, bioactive compounds and additives, extracted from biomass produced for this purpose, or from the valorization of agricultural or agro-industrial waste, holds great potential for the development of new edible and/or active packaging. This Special Issue aims to provide an update on the current trends and knowledge regarding the formulation, processing, characterization and the applications of edible and bio-based/biodegradable active packaging for the food sector and other bio-sectors, such as cosmetics.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
