Message from the Guest Editor

Dear Colleagues,

This Special Issue will encompass a multiple of aspects regarding the safety, quality, and processing of seafood products. Any topics pertaining to the public health aspects of seafood or its production, including prevalence of microbial or chemical hazards are welcomed. Descriptions of processing methods and their effects on quality and/or safety will also be included. Additionally, development or evaluation of methods to enumerate hazards in seafood products, monitor product quality, or assess processing technologies are encouraged. This Special Issue will include papers on all forms of seafood products, as well as all stages of pre-harvest, harvest, handling, storage, transport, and processing.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.
