## Prof. Dr. Cristina Delerue-Matos

Instituto Superior de Engenharia do Porto, 4249-015 Porto, Portugal

Deadline for manuscript submissions:

closed (15 January 2024)

# **Message from the Guest Editors**

In recent years, there has been an increasing amount of interest in recovering bioactive compounds from agricultural, forestry, food industry wastes, aiming to reduce their environmental impact and simultaneously improve the sustainability of economy and society. Due to their recognized health properties, such as antioxidant, antimicrobial, anti-inflammatory activities, the recovered compounds can be incorporated in food, cosmetic, pharmaceutical products, giving them an extra value.

This Special Issue welcomes research articles and reviews that could fill the gap between research and industrial applications, addressing the new advances in biowaste valorization for novel product application. Manuscripts devoted to the extraction of bioactive compounds from agro-food wastes, their chemical and safety characterization are also welcome. Particular attention will be given to manuscripts that demonstrate the application of the obtained extracts in new products and evaluate their effect

An integrated approach to the challenge of sustainable food systems: adaptive and mitigatory strategies to address climate change and malnutrition (https://www.nibio.no/en/projects/systemic).

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

**Journal Rank:** JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
