### Message from the Guest Editors

As Guest Editor of the special issue "Novel approaches in food preservation and their impact on the food system" in *Foods*, I would like to invite to contribute with an article or review paper focused on recent studies on the development of emerging sustainable solutions for food storage and their impact on the food system, thus contributing to more sustainable food value chains and limiting food waste. In this contest, bio-preservatives, active packaging together with eco-friendly and non-thermal technologies are of great interest.
