The Use of Green Solvents and Compressed Fluid Extraction Technologies in Food Science

Guest Editors:

Dr. Mónica Bueno

Laboratorio de Análisis del Aroma y Enología, Departamento de Química Analítica, Instituto Agroalimentario de Aragón (UNIZAR-CITA), Facultad de Ciencias, Universidad de Zaragoza, Zaragoza, Spain

Dr. Jose A. Mendiola

Laboratory of Foodomics, Institute of Food Science Research (CIAL, CSIC-UAM), Madrid, Spain

Deadline for manuscript submissions:

closed (31 July 2023)

Message from the Guest Editors

Dear Colleagues,

Present-day society is facing various challenges, consumers are demanding a sustainable development of more eco-friendly products that also promote nutrition and health. Therefore, processes and products that can be obtained while complying with the principles of green chemistry are hot topics, along with reduced or even totally eliminated wastes in food and agricultural byproducts and the search for new alternative sources of food.

Therefore, the upcoming Special Issue aims to provide an overview of the current progress made in the field of the compressed fluid technologies applied to food development, processes and products, and green developments in the field of food analysis.

Original research papers and review articles related to but not limited to the following topics are welcome: extraction, fractionation and purification, biological activities, complex approaches based on process integration, deep eutectic solvents, biosolvents, intensification and biorefinery platforms, valorization of food by-products, pretreatments, enzymatic reactions, scaling up, and economic and environmental impacts.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
