submissions:

closed (5 June 2023)

Message from the Guest Editor

Presently, food enzyme application is increasing to tailor commercial preparations to serve the food industry needs. In this regard, I want to demonstrate that using enzymes in food processes offers many exciting applications, and their use in food processing can modify or improve the functional, nutritional, and sensory properties of food and beverages.

Enzymes are used in different food segments, such as baking, dairy and starch processing, brewery and beverages, etc., to process and store the food materials. In this Special Issue, aspects related to enzymes extraction, purification, and application should be treated. Studies regarding enzyme immobilization for sustainable food production strategies are also welcome and encouraged.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))
