

Special Issue

Innovative Achievements on Food Processing “From Farm to Fork”

Message from the Guest Editor

The food sector faces major challenges arising from new global conditions and the coming climate crisis which cause changes in the sector’s economic and non-economic environments. These changes cannot successfully be dealt with through the initiatives of individual partners but require concentrated actions and the coordination of initiatives across the “farm to fork” line of action.

This special issue is focused on the innovative aspects in and the research findings on all parts of food processing and consumption. Furthermore, submissions assessing foreseen problems and difficulties of the sector in the new global socioeconomic conditions are welcome. The scientific research that is invited for submission can include but is not limited to new technologies in production and processing; environmental impacts and conservation such as green transformative pathways; new, innovative healthy foods; food safety; emotional aspects; eating motivations; concerns and perceptions; and the motives behind the food choices of consumers.

Guest Editor

Dr. Dimitris Skalkos

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
