

## Special Issue

# The Application of Chemometrics-Assisted Spectroscopy in Authentication of Foods and Beverages

### Message from the Guest Editors

Due to the ultimate convenience of molecular spectroscopy, it has become an increasingly popular tool for food safety evaluation. There are multiple advantages of molecular spectroscopy detection, such as non-destruction, free-reagent, rapidness, and on-site possibilities. Without doubt, all new spectroscopy with chemometrics-assisted algorithms, technologies, and equipment will make detection in food authentication more convenient and sustainable. Based on the above research or methodologies, the evaluation standard of food quality could be greatly improved. As a result, this Research Topic focuses on food or beverage authentication. We welcome review submissions, innovative methods, or perspective articles on the advanced utilization of vibrational spectroscopy or innovative spectral approaches. Additionally, we set no limit on food fraud identification involving new chemometrics development, mobility or miniature implementation, selection of high-throughput equipment, statistical modeling, spectral signal processing, pattern recognition, 5G data transmission, and hyperdata mining.

### Guest Editors

Dr. Yue Huang

College of Food Science and Nutritional Engineering, China Agricultural University, Beijing, China

Dr. Zhanming Li

School of Grain Science and Technology, Jiangsu University of Science and Technology, Zhenjiang, China

### Deadline for manuscript submissions

closed (15 February 2024)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
