Special Issue

Application of Innovative Technologies for Improving Food Quality and Safety: 2nd Edition

Message from the Guest Editors

Consumer demand for high-quality foods, which are nutritional, safe, and convenient, has led to interest in the use of innovative processing technologies. The introduction of these new technologies, such as non-thermal or alternative technologies, can also reduce processing time and improve industrial operating conditions, resulting in high-quality products that better preserve their fresh-like characteristics. The main purpose of this Special Issue, 'Application of Innovative Technologies for Improving Food Quality and Safety: 2nd Edition', is to provide high-quality manuscripts regarding the use of innovative technologies and discuss their impact on food nutritional quality, sensory aspects, safety, and other related factors.

Guest Editors

Prof. Dr. Patrícia Moreira Azoubel
Department of Chemical Engineering, Federal University of
Pernambuco, Recife, Brazil

Dr. João Henrique Fernandes da Silva Belo Jardim Academic Unit, Federal Rural University of Pernambuco, Belo Jardim, Brazil

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

- 1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
- 2. Department of Comparative Pathobiology, Purdue University, West Lafavette. IN 47907. USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
