

## Special Issue

# Alcoholic Beverages: Their Processing, Quality, Sensory Attributes, Consumption, and Health Properties

### Message from the Guest Editors

The beverage industry is expanding, the changes in market trends have largely been driven by increasing disposable incomes, online shopping and consumers' preoccupation with sustainability and health. Consumers are becoming more health-conscious and more respectful of drink-driving regulations, which are becoming increasingly stricter. Moreover, consumers are attracted to wellness-promoting lifestyles, searching for alcoholic beverages with a higher content of healthy compounds that can help to prevent various diseases, or beverages with low or no alcohol content. Simultaneously, the alcoholic beverage sector remains in demand. Online shopping and rapid digitization offer modern consumers access to a greater variety of beverages, but at the same time, means that beverage companies must reinvent themselves and offer different products that position them in the market. The beverage market is poised for significant growth, with innovation representing a crucial factor that requires further research.

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
