

## Special Issue

# Edible Film and Coating Materials for Food Preservation

### Message from the Guest Editors

Edible films and coatings are a thin layer of material applied to the surface of foods that can be consumed as part of the product or with further removal. In recent years, the growing interest in the use of edible films and coatings has also been associated with their possible use as excellent vehicles for a wide variety of active compounds, such as anti-browning agents, flavors, nutrients, and antimicrobial and antioxidant compounds. For these reasons, in the last decade, edible films and coatings have attracted the interest of researchers and consumers, since they can improve the safety, quality, and functionality of food products as well as extend their shelf-life. This Special Issue is devoted to review and original research articles on advances in edible films and coatings, materials used for their development, and their applications in the food sector.

### Guest Editors

Dr. Donatella Albanese

Department of Industrial Engineering, University of Salerno, Via Giovanni Paolo II, 84084 Fisciano, Italy

Dr. Francesca Malvano

Department of Industrial Engineering, University of Salerno, 84084 Fisciano, SA, Italy

### Deadline for manuscript submissions

closed (10 November 2023)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
