# Advanced Packaging Materials for Food Safety, Storage and Transport

### Message from the Guest Editors

Food has become richer and more complex to process, preserve, and transport, necessitating the use of premium food packaging materials. In recent years, people have become inclined to use natural polymer materials as raw materials to produce environmentally friendly and biodegradable advanced packaging materials that improve food safety and reduce environmental pollution. Active packaging and intelligent packaging confer functional characteristics on food packaging that traditional packaging cannot obtain, highlighting a current trend and future direction for food packaging. Mean. Prior to use, these novel materials must also exceed standards for food safety. To increase social and economic benefits, it is crucial to create high-tech food packaging materials, ensure food quality and safety, and extend food shelf life. We look forward to receiving your original research articles and review articles.

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
