

## Special Issue

# Nanomaterials and Nanotechnology in Food: Applicability, Functionality, and Safety—2nd Edition

### Message from the Guest Editors

Food safety is a main research hotspot in food science and a global public health concern. Contaminants in food, such as foodborne pathogenic micro-organisms, pesticides, veterinary drug residues, toxins, and illegal additives that are produced during food processing and preservation, threaten human health. The applications of nanomaterials and nanotechnology in food science and engineering have received increasing attention. Some typical applications include nanocatalyst-based electrochemical/colorimetric/fluorescent sensing platforms, nanocatalyst-based advanced oxidation processes, nanomaterial-embedded packaging films and other novel electro-/photo-catalysis techniques in food science. Furthermore, training complex models based on artificial intelligence (AI) frameworks enables the prediction of intricate relationships and the execution of more complex tasks. Here, we cordially invite authors to contribute original research articles or review articles covering the most recent progress in the application of nanomaterials and nanotechnology in food, as well as food safety analytical methods based on traditional machine learning or deep learning approaches.

### Guest Editors

Dr. Qinzhi Wang

Dr. Ying Gu

Dr. Wenxin Zhu

### Deadline for manuscript submissions

31 October 2025

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
