

## Special Issue

# Innovative Biotechnological Approaches in Food Processing and Analysis

### Message from the Guest Editors

The aim of this Special Issue is to provide some new (1) biotechnological approaches for the biotransformation of food ingredients, the enhancement of food bioactive compounds, and the bioconversion of food waste; (2) methods for the extraction, separation, purification, detection, and analysis of food ingredients; and (3) technologies to ensure food quality and safety in food processing.

We welcome both original research and review articles on topics including, but not limited to, the following:

- Innovative approaches for biotransformation of food ingredients from microorganisms, insects, plants, and animals;
- Innovative approaches for the intensification of food bioactive compounds;
- Innovative approaches for the bioconversion of energy resources from food waste;
- Innovative approaches for the detection and analysis of food ingredients;
- Innovative approaches for the extraction, separation, and purification of food ingredient;
- Innovative approaches for food quality and safety control in food processing;

### Guest Editors

Dr. Jingya Qian

School of Food and Biological Engineering, Jiangsu University,  
Zhenjiang 212013, China

Dr. Juan Kan

School of Food Science and Engineering, Yangzhou University,  
Yangzhou 225127, China

### Deadline for manuscript submissions

20 August 2025

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
