# Food Waste and By-Products: Bioactive Compounds, Their Extraction, and Possible Utilization

## Message from the Guest Editors

This Special Issue aims to provide an overview of the current status and future perspectives of these materials in terms of their extraction, analysis, and utilization in diverse industries. Potential topics for submission include, but are not limited to:

- Extraction methods for valuable compounds from agricultural by-products and food waste.
- Characterization and analysis of bioactive constituents in these materials.
- Utilization of extracted compounds for the development of functional foods, nutraceuticals, or dietary supplements.
- Safety evaluation and toxicological studies on agricultural by-products.
- Applications of these resources in pharmaceutical, cosmetic, or agricultural sectors.
- Biotechnological approaches for converting residues into value-added products.
- Sustainable management and innovative utilization of agricultural by-products and food waste.

### **Guest Editors**

### Prof. Dr. Roger Ruan

Center for Biorefining and Department of Bioproducts and Biosystems Engineering, University of Minnesota, 1390 Eckles Ave, St. Paul, MN 55108, USA

### Dr. Hongli Zheng

MOE Biomass Energy Research Center and College of Food Science and Technology, Nanchang University, 235 East Nanjing Road, Nanchang 330047, China

### Deadline for manuscript submissions

closed (20 February 2025)

## **About the Journal**

### Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### **Editor-in-Chief**

### Prof. Dr. Arun K. Bhunia

- 1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
- 2. Department of Comparative Pathobiology, Purdue University, West Lafavette. IN 47907. USA

### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
