# Bioactive Compounds from Fruit and Vegetable Waste: Extraction and Possible Utilization

### Message from the Guest Editors

Fruit and vegetable waste is a critical problem worldwide that can come from wasting inedible parts or even from poor food handling or preservation. Fruit and vegetable by-products are rich in bioactive compounds and can be used as novel ingredients or food fortificants. An optimal extraction of these health-promoting compounds will allow efficient use of these compounds, just as we can reduce the amount of fruit and vegetable waste. Moreover, these by-products can have numerous potential applications in different fields, favouring a circular economy. In this way, we can develop more sustainable agricultural systems and improve food security and nutrition.

### Guest Editors

Dr. Noelia Castillejo Montoya

Department of Agricultural Sciences, Food, Natural Resources and Engineering, Università degli Studi di Foggia, Via Napoli 25, I-71122 Foggia, Italy

Dr. Lorena Martínez-Zamora

1. Department of Food Technology, Nutrition, and Food Science, Faculty of Veterinary Sciences, University of Murcia, Espinardo, 30071 Murcia, Spain
2. Department of Agronomic Engineering, Universidad Politécnica de Cartagena, 30203 Cartagena, Spain

### Deadline for manuscript submissions

closed (5 September 2023)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
