

Special Issue

Gluten-Free Foods: Nutritional Quality, Sensory and Physicochemical Properties

Message from the Guest Editors

Gluten-free (GF) products research and development requires a holistic approach that considers multiple objectives focused on the interface between food science, nutrition, and health to face the challenges. This Special Issue aims to provide a broad spectrum of information about the effort to improve the quality and range of GF foods, including original and review articles. The research area includes innovative ingredients, GF product development and quality control, novel functional and healthier GF foodstuffs, approaches to improve GF products quality, evaluation of physical properties and nutritional labeling of commercially available GF products, consumer opinion and expectations about GF foodstuffs, assessment of specially designed GF products potential health benefits, as well as aspects related to GF food safety. Novel approaches, including social media research, cross-cultural studies, and artificial intelligence, that help understand aspects related to GF food safety, and GF consumer perception, opinion, and health literacy, are also welcome. We look forward to your valuable contributions.

Guest Editors

Dr. Vanessa Capriles

Dr. Urszula Krupa-Kozak

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
