Seafood: Processing, Preservation, Nutrition, Marketing, and Policy

Message from the Guest Editors

Seafood is considered to be an important part of a balanced diet because it can provide us with essential nutrients, including proteins, unsaturated fatty acids, and minerals. However, problems continue to emerge due to the rapidly increased processing, preservation, and consumption of seafood all around the world. Significant research is still needed to promote the processing and preservation progress of seafood, developing high-quality seafood products. The relationship of seafood nutrition and health still attracts a lot of interest among researchers and consumers. To maintain a healthy seafood industry and obtain a better understanding of the processing and safety of seafood, we are launching this Special Issue. All studies related to these topics are welcome.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
