Application of Enzyme Biotechnology in Foods

Message from the Guest Editor

Enzyme biotechnology has a wide range of applications in the food industry. Enzymes are used in food processing to improve quality, enhance taste, and increase shelf life. They are also used in the production of food additives such as emulsifiers, thickeners, and stabilizers, as well as in the production of alcoholic beverages, cheese, and bread. Therefore, it is not an exaggeration to say that we are currently in the age of enzyme biotechnology. With this in mind, we would like to prepare a Special Issue, entitled "Applications of Enzyme Biotechnology in Foods", so that the excellent research results of enzyme biotechnology researchers can be utilized in the food industry.

Guest Editor

Dr. Jae-Hoon Shim

Department of Food Science and Nutrition, Hallym University,
Chuncheon, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
