Recovery of Bioactive Compounds from Food Processing Waste: Extraction and Application in Foods

Message from the Guest Editor

The global food industry generates vast amounts of processing by-products and waste, representing not only a significant environmental concern but also a valuable untapped source of bioactive compounds, such as polyphenols, flavonoids, dietary fibers, peptides, pigments, and other phytochemicals with antioxidant, antimicrobial, and health-promoting properties.

This Special Issue will contribute to further knowledge on the development of value-added functional ingredients or food products, promote sustainable food systems through circular economy principles. It is expected to gather original research articles, short communications, and reviews focused on innovative strategies for the recovery, characterization, and application of bioactive compounds derived from food processing waste.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
