

## Special Issue

# New Insights into Legume and Cereal Innovations in Processing, Storage and Shelf Life

### Message from the Guest Editors

As global food demand continues to rise, legumes and cereals play a critical role in ensuring food security while guaranteeing nutritional quality. The aim of this Special Issue is to gather high-impact reviews and original research papers that study innovations in legume and cereal technology with a particular emphasis on, but not limited to, (i) novel processing methods that could improve nutritional value and physicochemical/technological properties (e.g., pulsed electric field, ultrasound, microwaves, high-pressure homogenization, and extrusion cooking); (ii) innovative approaches in food product development (e.g., protein extraction; meat, fish, and dairy alternatives; and fortified traditional foods like bakery products, snacks, and pasta); (iii) the evaluation and extension of the shelf life of cereal- and legume-based food products; and (iv) the recovery and valorisation of by-products and side streams originating from cereal and legume processing technologies. We strongly encourage contributions with interdisciplinary approaches, combining biotechnology, engineering, and food science to address the challenges in the legume and cereal sectors.

### Guest Editors

Dr. Davide De Angelis

Section of Food Science and Technology, Department of Soil, Plant and Food Science, University of Bari, 70126 Bari, Italy

Dr. Carmine Summo

Section of Food Science and Technology, Department of Soil, Plant and Food Science, University of Bari, 70121 Bari, Italy

### Deadline for manuscript submissions

closed (28 January 2025)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
