Sustainable Agri-Food Processing: From the Perspective of Starch-Based Foods

Message from the Guest Editors

Faced with global resource scarcity and environmental issues, traditional agricultural food processing is encountering significant challenges. In response, the concept of sustainable development has emerged as a crucial solution. Starch-based foods, such as rice, noodles, cookies, etc., are the foundation of people's daily diet and play an important role in sustainable agricultural food processing. The selection of raw materials; processing methods; changes in nutritional composition and quality; and comprehensive utilization of by-products in starch-based food processing are all of great concern to us. Additionally, the submission of interdisciplinary research studies is highly encouraged, such as those discussing food science, biology, chemistry, agriculture, and environmental science. We look forward to your submissions.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
