Advances in the Approach Food Allergy

Message from the Guest Editor

The research field of food allergy is experiencing an important development with essential advances in the understanding of the pathophysiology of food allergy, sensitization routes, and the roles that specific immune cells, receptors, and pathways have in the initiation, development, and regulation of food allergies.

Furthermore, novel insights on allergen characterization are not only providing advances in the description of new allergens and their properties, but they are also creating accurate maps of the epitopes that are highly recognized by IgE. The numerous advances that the research field of food allergy is currently experiencing, are creating potential for improved strategies in the diagnosis and treatment of food allergy.

Your contribution to this Special Issue will be a valuable asset and a compelling contribution that will potentially have an important impact on the field of food allergy.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
