

Special Issue

Environmentally Friendly Manufacturing of Food Additives and Functional Ingredients: Volume II

Message from the Guest Editors

Food additives and functional ingredients are the catalysts and headstones of the modern food industry, affecting every step of food production, processing, and storage. Currently, the need of the hour has motivated the innovation of environmentally friendly manufacturing processes of food additives and functional ingredients involving bioconversion, extraction, separation and purification, stabilization, formulation, compounding, etc., as well as relevant process intensification and integration, all of which ensure that the above deep-seated problems are solved and manufacturing additive products have the correct functions and reliable safety. This Special Issue aims to disseminate research that can address and discuss theoretical and practical clean production, encompassing environmental and sustainability issues for producing food additives and functional ingredients.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
