

Special Issue

Analytical Characterization of Foods and Beverages

Message from the Guest Editors

In this Special Issue, scientific research regarding the analytical characterization of foods and beverages will be welcome. Examples of these could be the relationships between the composition of foods and beverages and their quality and the possible healthy beneficial effects; the development and production of new food products; the sensory analysis of foods and beverages and/or studies with consumers; the study of byproducts and residues of food industry as a potential source of high added value products and their use as raw material in other industries related to health or food (cosmetics, dietetics, preservatives, etc.); the optimized ageing of oenological products and the characterization of woods employed for ageing purposes; the use of alternative ageing methods in beverages employing accelerating energies; the study of antioxidant activity in foods and beverages; the analysis of polyphenols and aroma and other parameters in foods and beverages; the employment of sensometric methods for the research of food products; development of sensory profiles employing standardized or alternative methodologies; etc. Of course, any other related research would also be welcome.

Guest Editors

Prof. Dr. Enrique Durán-Guerrero

Analytical Chemistry Department, Faculty of Sciences-IVAGRO, University of Cádiz, Agrifood Campus of International Excellence (ceiA3), Post Office Box 40, Pol. Río San Pedro, 11510 Puerto Real, Cádiz, Spain

Prof. Dr. Remedios Castro-Mejías

Analytical Chemistry Department (IVAGRO), Faculty of Sciences, University of Cadiz, 11510 Puerto Real, Spain

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
