

## Special Issue

# The Past, Present and Future of the Fruit Wine Industry

### Message from the Guest Editors

An increasing number of consumers are choosing fermented fruit wine with a lower alcohol content and richer flavor over more common alternatives. This Special Issue will review the history of fruit wine, analyze current hot spots in this field, and explore future development directions of the fruit wine industry. Topics to be addressed include, but are not limited to, the following: (1) The fermentation adaptability of different fruit varieties;

(2) The change mechanism of bioactive compounds in fruit wine processing;

(3) The influencing mechanism of key processing unit operation in core nutrient components and efficient retention of nutrients;

(4) The development of traditional and new yeasts and their application in high-quality fruit wine;

(5) Flavor/taste/aroma profiles in fruit wine;

(6) Authenticity and traceability and microbial biotechnological approaches aiming to improve food safety and potential health benefits;

(7) Analysis of components in fruit wine and/ or rapid methods and innovative applications;

(8) Methods for determining roles of fruit wine components in human health using omics technologies and/or system biology.

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
