Development of Functional and Fortified Foods

Message from the Guest Editor

The growing demand for foods that contain added health ingredients and/or bioactive compounds able to produce a nutritional benefit for the consumers requires continued and increased research efforts. From this perspective, the development of new functional and fortified foods with proven new functionality, even obtained by using alternative ingredients as well as by innovative processes, is of extreme importance. The purpose of this Special Issue, “Development of Functional and Fortified Foods” is five-fold: (1) usage of alternative sources for the development of functional/fortified foods; (2) use of by-products as functional ingredients for new foods formulation; (3) identification of novel compounds/extracts to be employed as functional ingredients; (4) novel technologies to be applied for functional/foods formulations; (5) assessment of health benefits of functional/fortified products. We invite authors to submit related original research articles and reviews to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
