Encapsulation and Implementation of Bioactive Compounds in the Production of Functional Food Products

Message from the Guest Editor

It is a great pleasure to introduce the Special Issue of *Foods*, entitled “Encapsulation and implementation of bioactive compounds in the production of functional food products.” This Special Issue aims to highlight current progress in the development of new encapsulation-based delivery systems with a particular attention to the implementation of new technologies and new materials, as well as to the encapsulation of functional ingredients originating from agro-industrial wastes as a part of sustainable food production. The challenge consists in adopting the micro/nano-capsules containing active ingredients with a maximum of functionality to the whole food matrix. Therefore, innovative applications and an overall multidisciplinary approach to the topic are warmly welcomed. The Special Issue is now open for submissions and you are cordially invited to submit review articles and original research papers.

Guest Editor

Prof. Dr. Draženka Komes

Department of Food Engineering, Faculty of Food Technology and Biotechnology, University of Zagreb, 10000 Zagreb, Croatia

Deadline for manuscript submissions

closed (18 March 2022)

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
