

Special Issue

Quality of Eggs, Poultry Meat and Egg Products

Message from the Guest Editors

The quality of eggs, poultry meat, and egg products is vital to the modern food industry, influencing consumer satisfaction and nutritional value. Their production involves breeding, feeding, and processing steps that determine their taste, texture, and composition. Innovative packaging further supports freshness and extended storage. With the growing demand for healthier, sustainable food, the industry is also focusing on environmentally responsible practices, including resource efficiency, reduced emissions, and improved animal welfare. Food safety and traceability are gaining importance in maintaining the integrity of egg and poultry products. This Special Issue aims to showcase current research on egg and poultry meat quality, highlighting technological innovations, sustainable practices, and evolving consumer expectations that shape production and processing in this important sector of the food industry. This Special Issue is dedicated to the 20th European Symposium on the Quality of Eggs and Egg Products and 26th European Symposium on the Quality of Poultry Meat that will be held between September 14 to 17, 2025 in Zadar, Croatia.

Guest Editors

Dr. Nives Marušić Radovčić

Department of Food Engineering, Laboratory for Meat and Fish Technology, Faculty of Food Technology and Biotechnology, University of Zagreb, Zagreb, Croatia

Prof. Dr. Helga Medić

Faculty of Food Technology and Biotechnology, University of Zagreb, Pierottijeva 6, 10000 Zagreb, Croatia

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
