Current Trends in Biopolymer-Based Films and Coatings for Food Packaging

Message from the Guest Editors

Biopolymer-based films and coatings have successfully been used for packaging various food products. It is our pleasure to invite you to submit a manuscript to this Special Issue. In particular, the topics of interest include but are not limited to the following: Biopolymer (protein, polysaccharides and lipids) based eco-friendly food packaging materials; Biopolymer-based edible/biodegradable films and coatings for food packaging; Biopolymer-based active and intelligent packaging; Incorporation of nanomaterials, crosslinkers and plasticisers to improve mechanical, physical, and thermal properties of biopolymers; Modifications, functionalisation, and/or blending of biopolymers with other polymers to improve the functional properties of the packaging; Incorporation and encapsulation of antimicrobial and bioactive compounds in food packaging to extend the shelf-life of food products; Novel approaches to fabricate food packaging films and coatings.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
