

## Special Issue

# Latest Research in Functionality of Dairy and Alternative Products

### Message from the Guest Editors

The global food industry is experiencing the growth of consumer demand for healthier foods. People have become more aware of their wellbeing and the relationship between diet and health. Therefore, consumer's needs are derived from taste, cost, and variety to added functionality. In general, functionalisation of food products is manufactured by adding bioactive ingredients at concentrations with proven beneficial effect or by modifying the concentration of those bioactive components already present in the product. Dairy and plant ingredients are an excellent source of essential nutrients and bioactive compounds with attributed health benefits. Moreover, there is a recent trend in developing sustainable food systems, where the formulation of dairy and plant-based products is gaining attention. This Special Issue invites original research manuscripts and comprehensive reviews aiming to advance the functionality of novel dairy and plant products. Particular areas of interest include innovative research in processing, formulation, stability, digestion, absorption, bioactivity, and related topics.

### Guest Editors

Dr. Elena Arranz

Department of Nutrition and Food Science, Universidad Complutense de Madrid, 28040 Madrid, Spain

Dr. Patricia García

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
