

Special Issue

Food Safety and Quality in Aquaculture and Fisheries Products

Message from the Guest Editors

This Special Issue aims to bring together high-quality research articles, reviews, short communications, and case studies that address current challenges and innovations in the field of food safety within aquaculture and fisheries. Topics may include risk assessment, pathogen detection, residue monitoring, regulatory frameworks, and sustainable farming practices that enhance food security. The subject aligns with the journal's scope, which includes food science, environmental monitoring, public health, and sustainable development. We intend to offer a platform for interdisciplinary dialogue and knowledge exchange that contributes to the improvement of seafood safety standards globally.

Topics of interest include, but are not limited to, the following:

- Microbial and chemical hazards in aquaculture and fisheries;
- Antibiotic and drug residues in seafood;
- Water quality and its impact on food safety;
- Monitoring and traceability systems;
- Regulatory and policy developments; Risk assessment methodologies;
- Sustainable practices to reduce contamination · Innovative technologies for food safety in seafood production.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
