Final Meeting of the GourMed PRIMA Project: Governance of the Food Supply Chain to Equilibrate Prices and Profits of High-Quality and Safe Mediterranean Foods

Message from the Guest Editors

Recent results from the GourMed project will be presented at the project's final meeting to be held in Rimini on the 9th of September 2024. This project was created to provide support and ensure the effective governance of the Mediterranean food supply chain, balancing prices and profits while maintaining safety and quality. This project aimed to help people understand value creation and distribution in food chains involving small actors, developing a multi-actor strategy to enhance the competitiveness of Mediterranean agri-food chains. GourMed also aimed to implement real-life pilot projects to assess impacts and validate results, providing guidelines for the development of sustainable agri-food chains in the region. The research works collected cover the valorization of Mediterranean products obtained from small and fair producers, the food chains of cereals, tomatoes, carob syrups, and others, considering different aspects, such as nutrition, biochemistry, microbiology, traceability, and fairness and sustainability assessments.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
