Advances in the Development of Biotic Foods: Probiotics, Prebiotics, Synbiotics, and Postbiotics

Message from the Guest Editors

The food industry has developed innovative products containing probiotics, prebiotics, synbiotics, and postbiotics; however, research challenges still exist, such as understanding the impacts of development, processing, and storage on the functionality of biotic food. We are excited to invite researchers and experts to submit their research to this Special Issue, titled "Advances in the Development of Biotic Foods: Probiotics, Prebiotics, Synbiotics, and Postbiotics". This Special Issue will provide an overview of the current state of the field and future perspectives. It will include recent research and review articles covering the impact of development, processing, and storage on biotic food functionality. The list is not exhaustive; other relevant topics will also be considered. - Biotic food development

- Innovative processing of biotics
- Fermented foods
- Scale-up
- The effects of processing biotics on gut microbiota
- Processing and storage of biotics

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
