

Special Issue

Bioactive Compounds in Bee Products: From Analysis to Health Benefits

Message from the Guest Editor

This Special Issue aims to connect 'Chemical Analysis' and 'Health Benefits' in bee product bioactive research. We welcome original research and reviews on these topics: i) separation, identification, and quantitative analysis of bioactive compounds in bee products, ii) investigation of in vitro and in vivo activity mechanisms, including antioxidant, antimicrobial, etc., iii) studying in vivo metabolic fate of active ingredients and developing novel delivery systems for stability and bioavailability and iv) developing methods using bioactive compound fingerprinting to authenticate bee product origin. Through this Special Issue, we hope to fully elucidate the scientific basis for the exceptional health benefits of bee products and promote their innovative applications in functional foods, nutraceuticals and preventive medicine.

Guest Editor

Dr. Jian Zhang

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
