

## Special Issue

# Food Risk Assessment and Control of Food Hazards

### Message from the Guest Editors

The principal objective in the risk assessment of food is the protection of public health via the identification of potential food hazards, the assessment of population exposure, based on either human biomonitoring or food (contaminants) analysis, and the evaluation of the obtained data with regard to the toxicological profile of the hazard and susceptibility of the exposed population. A tremendous number of potential hazards and their combined occurrence—changing consumer preferences and food consumption patterns, new food sources and food production systems, circular economy, climate change, among others—could affect food safety and determine food health impact. The endeavor to assure food safety and reduce the risk of foodborne diseases throws up a variety of challenges, and calls for action from food scientists, producers, risk assessors and managers. The Special Issue on “Food Risk Assessment and Control of the Food Hazards” invites recent research and review articles which introduce the topic at hand and provide an overview of its current status and future perspectives.

### Guest Editors

Prof. Dr. Ljilja Torović

1. Department of Pharmacy, Faculty of Medicine, University of Novi Sad, Novi Sad, Serbia
2. Center for Medical and Pharmaceutical Investigations and Quality Control, Faculty of Medicine, University of Novi Sad, Novi Sad, Serbia

Dr. Paula Cristina Alvito

1. Food and Nutrition Department, National Institute of Health Dr. Ricardo Jorge, Lisbon, Portugal
2. Centre for Environmental and Marine Studies (CESAM), University of Aveiro, Aveiro, Portugal

### Deadline for manuscript submissions

closed (31 January 2024)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
