

## Special Issue

# Cereal and Cereal Products: Quality, Functionality, Health Security and Application of New Technologies

### Message from the Guest Editors

Cereals are extremely important for human civilization. People have been using cereal grains in their diet since the dawn of time, and this is particularly true at present as, due to consumers' returning to the natural sources of food, integral cereals have become the basis of proper nutrition. Cereals are rich in complex carbohydrates, which provide long-lasting energy, maintain stable blood sugar levels and contain B group vitamins and minerals such as iron, magnesium and zinc. Whole grains are particularly rich in dietary fiber, which improves digestion and maintains healthy intestinal flora. This Special Issue considers the quality, functionality, and health safety of cereals and cereal-based products, as well as the application of new technologies for producing health-safe and nutritionally valuable cereal-based products. Potential topics include, but are not limited to, the following:

- Quality of cereals and cereal products;
- Health safety of cereals and cereal products;
- Novel cereal processing technologies;
- Methods of removing antinutrients from cereal products;
- Functional cereal products;
- Cereal waste management.

### Guest Editors

Dr. Olivera Šimurina

Institute of Food Technology in Novi Sad, Bulevar Cara Lazara 1, 21000 Novi Sad, Serbia

Dr. Elizabet Janić Hajnal

Institute of Food Technology, University of Novi Sad, Bulevar Cara Lazara 1, 21000 Novi Sad, Serbia

### Deadline for manuscript submissions

30 November 2025

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
