

Special Issue

Food Security and Structural Transformation of the Food Industry

Message from the Guest Editor

The COVID-19 pandemic has dramatically changed our way of life, including the way we interact with food. As we adapt to the new normal of the pandemic, the food industry is also experiencing profound structural transformation. Food security concerns such as food price fluctuation, household and restaurant food waste pattern changes, health risks introduced by take-out orders, etc., also arise. Food security researchers have collected data to investigate issues surrounding food security. As a result, we feel it is the right time to organize a Special Issue on food security and the structural transformation of the food industry. We are looking for papers that investigate food security issues related, but not limited to, impact from the pandemic, while also offering critical reflection and providing a forward-looking discussion on future expectations in the realm of food security.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
