

Special Issue

Coffee and Coffee Byproducts: Processing, Quality, Nutritional and Health Aspects - Volume II

Message from the Guest Editors

This Special Issue invites research characterizing bioactive compounds in coffee and its byproducts and exploring their potential applications for the food industry. Papers may focus on the development of novel methods for coffee analysis, either identifying specific bioactive components or determining their effect on the resulting antioxidant properties. Other interesting aspects include the effect of novel processing or extraction techniques on byproducts' composition; assessment of the health-promoting properties of bioactive compounds found in coffee and its byproducts, including studies of bioavailability, bioaccessibility, and mechanisms of action; and the application of coffee byproducts or extracted substances directly on food or related products (active packaging, etc.). Submissions may either provide a review of the scientific literature or describe original research.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
