Functional Foods (Phytochemicals) and Dietary Supplements in Prevention of Chronic Disorders/Conditions

Message from the Guest Editors

Phytochemicals are plant-based bioactive compounds that are abundant in fruits, vegetables, grains, and other plant foods. They have been demonstrated to play an important role in targeting mechanistic pathways of chronic diseases such as type 2 diabetes, cardiovascular diseases and cancer. Foods containing these bioactive phytochemicals offer health benefits in addition to their usual nutritive advantage. This Special Issue is open to submissions that investigate the impact of such functional foods in targeting chronic disease conditions using in vitro, ex vivo and in vivo biological models. Literature reviews, including systematic quantitative reviews, are also welcomed.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
