

## Special Issue

# Food-Derived Functional Proteins/Peptides: Discovery, Activity Evaluation and Protection, Ingredients Production Technology and Application

### Message from the Guest Editor

At present, the discovery of various food-derived proteins (peptides) from animal sources, plant sources, marine sources, and microbial sources, their activity evaluation, and food product creation continue to attract attention. Of particular interest are their immune-enhancing functions, antioxidant function, auxiliary improvement of memory function, sleep function, relief of physical fatigue, regulation of body fat, improvement of bone density, and maintenance of blood lipids, blood sugar, blood pressure and levels of other aspects of healthy blood.

In this Special Issue, we sincerely invite you to submit your comments on the topic of "Food-Derived Functional Proteins/Peptides: Discovery, Activity Evaluation and Protection, Ingredients Production Technology and Application".

Potential topics include but are not limited to the following:

Development of new functional proteins and active protein peptides

Structure-activity relationship of functional proteins (peptides)

Digestive properties, absorption and bioavailability and its molecular mechanism of action

Product development and quality control of food-derived proteins (peptides)

### Guest Editor

Prof. Dr. Songyi Lin

National Marine Food Engineering Technology Research Center, Dalian Polytechnic University, Dalian, China

**Deadline for manuscript submissions**

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
