

Special Issue

Foodborne Pathogen: Formation, Detection, Control and Risk Assessment

Message from the Guest Editor

Foodborne pathogens are a major threat to public health; they are globally responsible for a significant number of disease-associated outbreaks. With this Special Issue, we aim to explore and discover the most recent advances in foodborne pathogen detection, control, and risk assessment to ensure their dissemination to the scientific and diagnostic community. We aim to publish work related to these areas; however, there is a huge interest in exploring interdisciplinary research, which could potentially link them to public health. We welcome science from emerging economies and developing countries which might increase our understanding of how these pathogens are behaving in these environments.

Guest Editor

Prof. Dr. Nicolae Corcionivoschi

Bacteriology Branch, Veterinary Sciences Division, Agri-Food and Biosciences Institute, Newforge Lane, Belfast BT9 5GB, UK

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
