

Special Issue

Functional and Sustainable Foods from Marine Resources

Message from the Guest Editor

Oceans are a vast reservoir of bioactive compounds and high-value nutrients, offering unique opportunities for food innovation, sustainability, and human health promotion. This Special Issue aims to explore the incorporation of marine-derived ingredients—such as seaweeds, microalgae, fish, shellfish, crustaceans, and marine by-products—into foods with enhanced nutritional, functional, and sensory profiles. We welcome original research articles, reviews, and short communications that address innovative processing technologies, nutritional and functional characterization, consumer acceptance, environmental impact assessment, and applications of marine ingredients in both traditional and novel food products.

Interdisciplinary studies that link marine biotechnology, the blue bioeconomy, and sustainable food systems are highly encouraged.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
