

Special Issue

Trace Elements and Emerging Contaminants in Sustainable Food Systems: Risks, Regulations, and Remediation

Message from the Guest Editors

We are pleased to invite you to contribute to a forthcoming Special Issue of *Foods*, titled “Trace Elements and Emerging Contaminants in Sustainable Food Systems: Risks, Regulations, and Remediation.” This Special Issue aims to explore the multifaceted challenges and opportunities surrounding trace elements and emerging contaminants in the context of sustainable food production and consumption. We welcome original research articles, reviews, and case studies that address topics including, but not limited to, the following: occurrence and behaviour of trace elements and contaminants in food systems, analytical methods for detection and quantification, toxicological and nutritional implications, regulatory frameworks and risk assessment strategies, innovative remediation and mitigation approaches, impacts on public health and food security. We kindly encourage you to submit your contributions. (s) *Prof. Dr. Cristina Couto*

Guest Editors

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
