Special Issue

Eco-Friendly Postharvest Technologies to Preserve or Enhance Quality and Safety of Fruit and Vegetable Products

Message from the Guest Editors

The aim of this Special Issue is to present recent advances in emerging eco-friendly technologies to maintain or enhance the postharvest quality and safety of fruit and vegetables. It will provide a solid reference for postharvest stakeholders to extend the shelf life. focusing on safety, functional, and sensory characteristics by using environmentally friendly technologies. A great deal of research has previously been published on this topic, but further research is still required to decrease the huge amounts of food waste and food loss by using sustainable processing technologies. Original manuscripts or reviews with new findings are welcome including (i) approaches and technologies to achieve shelf-life extension without compromising quality and safety parameters, and (ii) innovative results on the quality and safety preservation of fruit and vegetable products with eco-friendly technologies.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

- 1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
- 2. Department of Comparative Pathobiology, Purdue University, West Lafavette. IN 47907. USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
