

Special Issue

New Perspectives on Food Waste and Recycling Systems

Message from the Guest Editors

This Special Issue, “New Perspectives on Food Waste and Recycling Systems”, aims to explore the innovative strategies, technologies, and policies that address the growing global challenge of food waste. It will highlight interdisciplinary research on waste reduction, sustainable processing, circular economy approaches, and resource recovery from food by-products. Contributions may examine recent advancements in recycling systems, the valorization of organic waste, and the development of eco-friendly materials, energy, and bio-based products. We also seek insights into behavioral, economic, and policy-driven solutions that promote responsible consumption and efficient waste management across the food supply chain. By integrating scientific, technological, and societal perspectives, this Special Issue will provide practical solutions and forward-looking frameworks that support sustainability, reduce environmental impacts, and enhance food system resilience.

Guest Editors

Dr. Nnabueze Darlington Nnaji

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
