

Special Issue

Innovative Packaging Technologies for Food Preservation

Message from the Guest Editors

In this Special Issue, 'Innovative Packaging Technologies for Food Preservation', we aim to highlight recent scientific and technological advances that enhance food quality, safety, and shelf-life through smart, active, and sustainable packaging solutions. We welcome original research and review articles focusing on emerging materials, biopolymers, nanotechnology applications, intelligent indicators, antimicrobial/antioxidant systems, and environmentally friendly packaging strategies. Particular emphasis will be placed on innovations that address global challenges such as food waste reduction, real-time monitoring of food conditions, and the transition toward circular economy practices. Studies involving material development, surface modification, sensor integration, and applications in real food systems are strongly encouraged. By gathering contributions from multidisciplinary experts, we aim to provide an integrated understanding of how advanced packaging technologies can support the future of food preservation and safety. We look forward to receiving high-quality submissions from researchers worldwide.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
